

# Chandler Robinson

## Personal Statement

I have honed my critical thinking, research, and analytical skills, which enable me to approach projects with precision and attention to detail. Additionally, my extensive exposure to various genres of literature has provided me with a strong foundation in storytelling, narrative structure, and creative expression.

I am adept at interpreting complex texts, deriving meaning, and effectively articulating my insights both in writing and verbally.

## Work Experience

### Marco's Pizza

September 2022 - May 2023

As a Marco's Pizza delivery driver, I absolutely love my job! Being the face of the company, I feel an immense sense of pride in delivering high-quality pizzas to our loyal and wonderful customers. I get to be out and about, meeting new people every day and visiting different neighborhoods in the process. It is not just about delivering pizzas; I also get the opportunity to brighten the day of the customers with a friendly smile, warm greeting and excellent service. I find my job fulfilling as I get to work with a team of dedicated professionals that work towards the same goal - customer satisfaction. Overall, being a Marco's Pizza delivery driver brings me great satisfaction and provided me with the flexibility needed to succeed in school.

### United Parcel Service

May 2021 - December 2022

Working during peak season amid COVID-19 provided me with a deeper understanding of the importance of teamwork and adaptability. The surge in package volume required collaboration and coordination among colleagues to meet customer demands. We adapted to changes in delivery routes, additional safety measures, and worked together efficiently to provide excellent service. This experience highlighted the significance of effective communication, cooperation, and problem-solving skills within a team.

### Green Resources

June 2021 - August 2021

Every person I screened had the potential to carry a contagious illness without even knowing it. By identifying elevated temperatures, I could take immediate action, such as referring individuals for further medical assessment or advising them on necessary precautions. This sense of responsibility and making a difference in people's lives was truly rewarding.

## EDUCATION

2017 - 2023

University of North Carolina at Charlotte  
B.A English
